

ACCELERATING TECHNOLOGICAL TRANSITIONS TOWARDS THE SDGS

Special G-STIC Event – June 7 – UNHQ, NY

- **OPENING + presentations of G-STIC 2018 co-hosts**
- **SESSION 1 – Deep dive into integrated technological solutions**
- **SESSION 2 – Cross-cutting themes of G-STIC**
 - Gender mainstreaming
 - Youth engagement
- **CLOSING – Sneak preview G-STIC 2018**

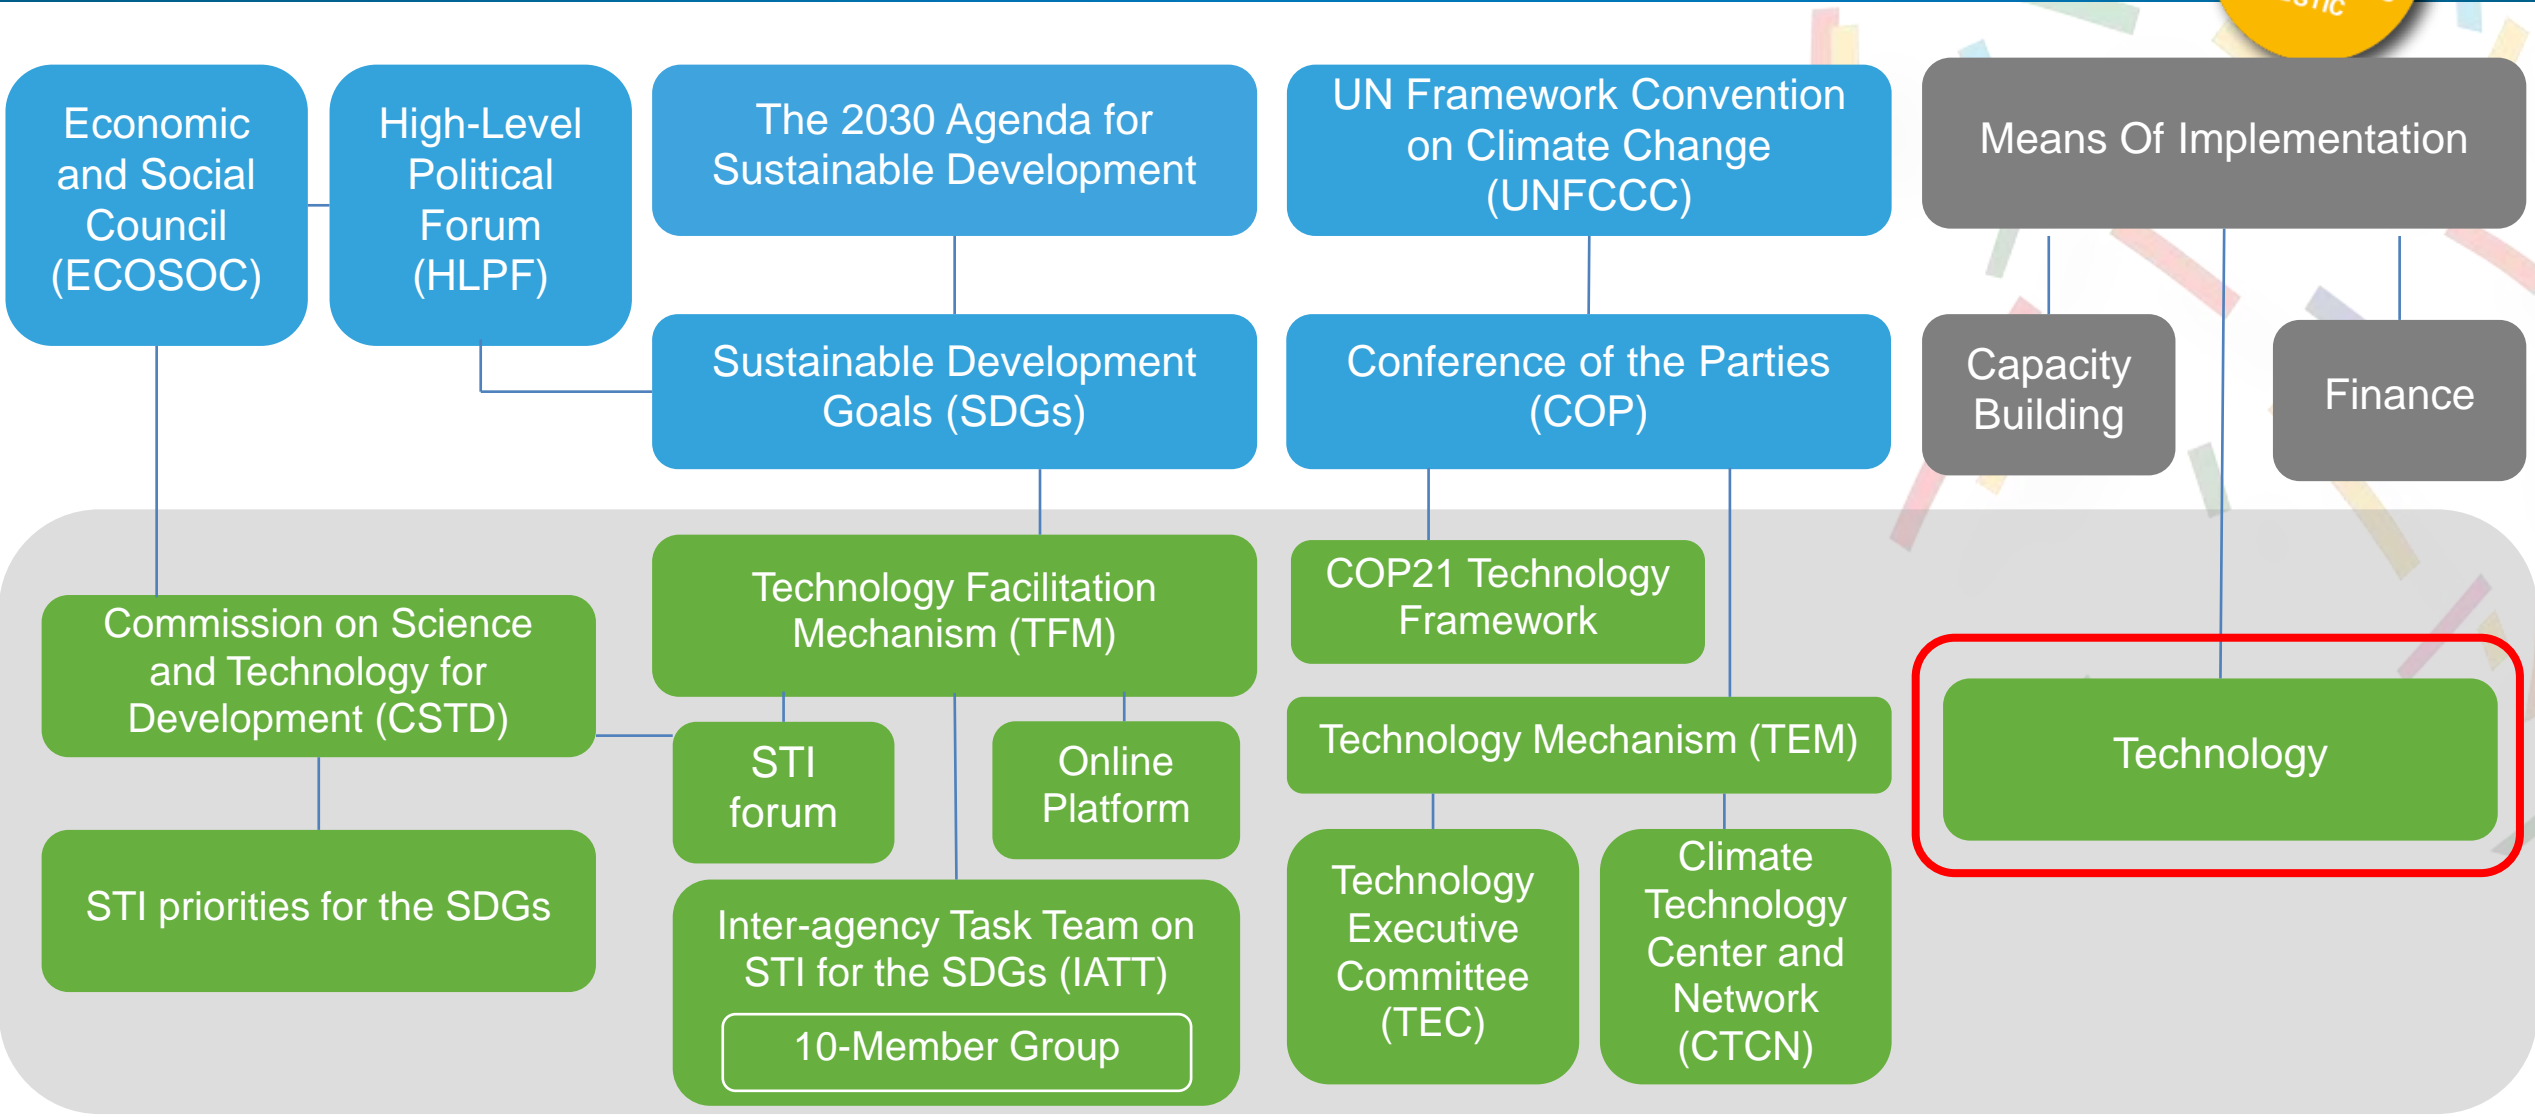

- Ms. Lotta Tähtinen
Chief of Outreach and Communications Branch, UN
Department for Economic and Social Affairs
- H.E. Toshiya Hoshino
Ambassador, Deputy Permanent Representative of
Japan to the UN & Co-Chair of the 2018 STI Forum
- H.E. Juan Sandoval Mendiola
Ambassador, Deputy Permanent Representative of
Mexico to the UN & Co-Chair of the 2018 STI Forum

Why we need major technological transitions to achieve the SDGs?

Veerle Vandeweerd – Policy Director G-STIC

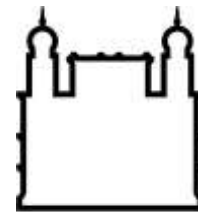

G-STIC is co-hosted by 6 independent non for profit technological research institutions.

vito

FIOCRUZ

- What are the (new) **technologies & solutions** needed to achieve the SDGs and deliver on the Paris Agreement?
- Major **gap** between latest technology and implementation
- Lack of **awareness** of what technology is already available
- No real understanding how to get solutions to **scale** quickly

- Conference series on integrated technological solutions for the SDGs
- More than a conference: a movement for new tech for the SDGs; building on global expert networks, expert institutions, wide consultations and knowledge bases
- Engaging with governments, business and civil society communities but independent from any specific interest group

G-STIC IS ABOUT DOABLE SOLUTIONS

Presenting, reviewing and discussing the best technological solutions that are:

- Technologically efficient in a particular context
- Socially acceptable and inclusive
- Financially affordable and economically profitable
- (Up and Re) scalable
